EDUCATION

Temple University – Fox School of Business, Philadelphia, PA

Bachelor of Science

May 2028

Major: Statistical Science and Data Analytics | Minor: Applied Epidemiology | GPA: 3.62

HONORS AND AWARDS

Honors: Temple University Honors Program, Fox Honors Program

Awards: Provost's Tuition Scholarship

PROJECT EXPERIENCE

Septa Potential Improvement Areas | *Personal Project*

August 2026 – September 2026

- Built a geospatial dataset in ArcGIS Pro using SEPTA Regional Rail ridership data with Census tract population, parking lot capacity, and median income to model station-level ridership predictors.
- Cleaned and aggregated ridership and population data, then assigned the data to 1 mile buffers around each station.
- Identified stations with lower ridership than expected for their local population as well as potential explanations.

Analysis of Sleep and Lifestyle | *Data Analysis and Statistical Computing*

February 2026 – May 2026

- Utilized R box plots to find the relationship between BMI and sleep related disorders or unhealthy amounts of sleep.
- Created data visualizations using the ggplot2 package to communicate the results of our research to our class.
- Collaborated with my group members to create a PowerPoint presentation to share our discoveries.

EXTRACURRICULAR EXPERIENCE

Member, Temple Data Analytics Club

August 2026 – Present

Member, Temple University American Statistical Association

January 2026 – Present

Social Media Chair, Temple University Men's Ultimate Frisbee Club

September 2024 – Present

Study Abroad, Temple University Rome

September 2025 – December 2025

Member, Wissahickon High School Computer Club

August 2022 – June 2024

WORK EXPERIENCE

Chick-fil-A, King of Prussia, PA

June 2025 – August 2025

Dishwasher

- Expeditiously cleaned all equipment and dishes within 1 hour after this fast-food kitchen closed each day.
- Assisted kitchen staff with food preparation during busy hours to ease their workload and aide smooth operation.
- Maintained sanitation and food safety standards by following strict cleaning protocols.

Acts Retirement-Life Communities, Lower Gwynedd, PA

June 2021 – June 2025

Dining Room Server

- Ran food in a 150 resident dining room each night while being efficient and catering to resident needs.
- Collaborated with team members to develop strategies that streamlined the food running process.
- Coached 8 new team members about customer service standards and kitchen protocols to help them succeed.
- Maintained relationships with residents to create an enhanced customer experience.

CERTIFICATIONS

Intro to Machine Learning, Kaggle

March 2026

Pandas, Kaggle

March 2026

SKILLS

Software: R (tidyverse, ggplot2), Python (Pandas, NumPy, scikit-learn), SQL, ArcGIS Pro, Tableau, Excel, PowerPoint, Word, OneNote, Canva, CapCut
